The Ultimate
Driving Machine

The new BMW M3 CSL.

To find the optimal path you need to drive the optimal car. With intelligent lightweight technology including a carbon-fibre roof, SMG DriveLogic transmission with steering-wheel-mounted paddles. A breathtaking 205 kW (360 bhp). And torque of 370 Nm at 4,900 rpm. You see, we've put all our motorsport experience into this BMW. Now it's your turn to get it out again.
