We'll never forget where we came from.

Introducing the new BMW M3 CSL.

1973. Those were the days when we first introduced the legendary BMW 3.0 CSL. Three letters that stood for a revolutionary concept: Coupé - Sports - Lightweight. It turned out to be a multiple motorsport winner. Now, we've done it again: a car dedicated to the passion

of pure performance. Once more, we've shed every expendable kilo. We've optimized our 3.25-liter straight-six engine. And we've built in the finest sports suspension. Perhaps you were too young for the first CSL. Well, here's your second chance.
